Opening Remarks

Holding ourselves accountable for strong outcomes takes a commitment to setting clear goals and developing strategies for achieving them. It means measuring and evaluating our progress, and extracting valuable insights from our results. Above all, it takes an eagerness to learn.

We chose Leaning into Learning as the theme for our 2018 Annual Report because learning is integral in our drive toward results. We rely on thoughtful research, evaluation and the experiences of our partners in the field to help us shape and sharpen our work. Through learning, we identify what went well, what we could have done better and where we can do the most good.

On the following pages, we highlight efforts from our four program areas that are focused on learning.

As an organization, The Get Informed Youth Development Centre is embracing learning to strengthen the way we serve and work. In 2018, we applied learning and evaluation to accelerate our efforts to become more intentional about learning. We commissioned a number of initiatives to collect actionable information about our performance. Throughout the year, staff members have been participating in an in-depth program designed to increase our effectiveness as a team. Both the Board and staff have benefited from diversity training.

We believe that learning together will deepen our understanding and ultimately help us adapt and improve.

Solutions to today's social challenges are always complex. But with strong grantees as our partners, we are "leaning into learning" to make a meaningful and lasting difference for people in Tembisa.

Mission Statement

History of the Organization

The youth development Centre was established in 2013 in response to the needs identified among youth. This was in order to provide a critical link between personal development and job creation in order to promote a sustainable livelihood.

Get Informed Youth Development Centre utilizes the municipal youth Centre to execute all of its activities. The establishment of the Youth Centre in the Tembisa Township will provide a critical link between personal development and entrepreneurship skills in order to promote sustainable development.

The Centre's needs based approach will ensure responsiveness to the needs of out of school youth, through relevant basic training like life skills and computer skills in order to increase chances of employment and marketability.
